ANKIT ANAND

Solution Architect / GenAI Engineer

anand.ankit093@gmail.com • Ulm, Germany • Permanent Residency • English C1 • German B1

Software Engineer with 8+ years of experience building high-performance distributed systems across Retail, Fintech, Telecom and Defense. Specialised in Java/Spring Boot microservices, cloud-native architecture on Azure, and enterprise GenAI integration using LangGraph, CrewAI and Model Context Protocol. Proven track record of delivering production AI systems and driving measurable business impact.

WORKING EXPERIENCE

Software Engineer — Solution Architect & GenAI Engineer, Centre of Excellence – AI (COE-AI)
QVC (Qurate Retail Group) Düsseldorf, Germany | Sept 2022 - current

- Built an AI-powered enterprise chatbot using Azure OpenAI, Cosmos DB vector embeddings and React, enabling semantic search across Confluence and SharePoint; deployed to production
- Architected a LangGraph agentic system (modernised with CrewAI) delivering 360° SKN/SKU product intelligence and autonomously dispatching inventory alarms with fulfilment recommendations to planning teams
- Led a GenAI-accelerated pilot: designed, built and shipped an end-to-end product to production in 2 weeks using GitHub Copilot and custom MCP servers, achieving 90% code coverage and reducing go-to-market time by 70%
- Architected the TikTok Shop marketplace integration: event-driven Java/Spring Boot microservices with marketplace-specific connectors (webhook receiver, order & fulfilment connectors, product-price processor) communicating via regional Kafka topics and a shared Common API Model — extensible to Meta, YouTube and Shopify
- Designed and implemented a centralised product cache as part of Platform Engineering, reducing primary database hits by 30%
- Built automated vendor onboarding services for Product Curation, cutting manual intervention by 65%

Software Engineer
360T (Deutsche Börse Group) Frankfurt, Germany | Nov 2021 - Aug 2022

- Designed a real-time currency pair data visualisation interface (Digitec GmbH), creating a new revenue stream
- Implemented and deployed post-trade adapters onboarding 15+ clients including Barclays, BMW and Commerzbank; consulted on 20+ client implementations across Swap, Spot and Crypto trade types
- Led Velocity to Freemarker template migration for post-trade adapters across 35+ clients
- Designed an email-based trade failure alarm system improving incident turnaround time by 70%
- Built multiple integration workflows using Apache Camel; actively involved in production support and client requirement gathering

Software Engineer
Manhattan Associates (R&D) Bengaluru, India | Apr 2019 - Oct 2021

- Built a cost allocation framework library for logistics shippers achieving 99% calculation precision
- Designed and delivered a carrier partner web portal, enabling a new business revenue stream
- End-to-end owner of 3 microservice-based systems across design, development, deployment and support
- Conducted bug-bash sessions on legacy systems to maintain defect levels below threshold

Software Engineer
Nokia (R&D) Bengaluru, India | Jul 2017 - Mar 2019

- Built an OTDR UI and backend system for optical network alarm tracking and scan automation for clients including Reliance and PTCL
- Extended Nokia OMS Software with multi-network card support (11QPA4, SFD); redesigned service discovery routing at the OTU-ODU layer of OTN

Research Intern
Defence Research & Development Organisation (DRDO) Bengaluru, India | Jan 2016 - Feb 2016

- Developed a C/ASM module for salt & pepper noise removal and correlation-based object tracking in surveillance systems
- Presented at the Embedded Systems Conference, NIMHANS, Bengaluru, 2016

EDUCATION

B.E. Electronics & Communications Engineering
Bangalore Institute of Technology Bengaluru, India | June 2013 - Aug 2017

First Class with Distinction

COMPETENCIES

Languages & Frameworks

- Java 21 • Python • Spring Boot • Spring Reactive • Spring Cloud • FastAPI • Express (Node.js) • Apache Camel • JPA

AI & GenAI

- Azure OpenAI • LangGraph • CrewAI • Model Context Protocol (MCP) • GitHub Copilot • Vector Embeddings • Vector Databases (Cosmos DB, Elasticsearch, Neo4j) • Agentic Systems

Web & Frontend

- RESTful Web Services • React • JavaScript • Apache Tomcat

Databases

- MySQL • Oracle • PostgreSQL • Couchbase • Cosmos DB • Neo4j • MyBatis

Infrastructure, Tools & Cloud

- Apache Kafka • Docker • Kubernetes • Jenkins • Spinnaker • Elasticsearch • Kibana • Grafana • Git • Maven • Gradle • Microsoft Azure • AWS

Industry Experience

- Retail • Fintech • Telecom • Supply-Chain • Defense

LANGUAGE PROFICIENCY

- German - B1 (ongoing – working towards B2) - ● ● ○ ○ ○
- English - C1 - ● ● ● ● ●

CERTIFICATIONS

- Introduction to Agent Skills – Anthropic – Issued Mar 2026
- Model Context Protocol: Advanced Topics – Anthropic – Issued Mar 2026 (Credential ID: 55xbqo927dse)
- AI Agents Fundamentals – Hugging Face – Issued Jan 2026 (Credential ID: Ankit0311)
- Fundamentals of MCP – Hugging Face – Issued Jan 2026 (Credential ID: Ankit0311)

HOBBIES AND INTERESTS

- Travelling and exploring new cultures
- Writing technical articles on Medium — medium.com/@anand.ankit093
- Investing and personal finance

ADDITIONAL INFORMATION

- Holder of German permanent residence permit (Niederlassungserlaubnis)
- Open to relocating for opportunities
- References available upon request
